Dear Insurer/Broker,

Our mutual client has picked Pilotsmith (a subsidiary of PS Companies, Inc) to provide them instruction in their owned aircraft. As a company we require each owner to carry appropriate liability and hull coverage for their aircraft at all times we provide instruction, we require this coverage to extend to our company and instructor providing the training.

For this reason, we request to be added to the insurance policy as an **additional insured** with a **waiver of subrogation** with respects to instruction given to our mutual client. We request to be added with the following verbiage:

“PS Companies, Inc, its subsidiaries and employees”
1911 Airport Dr.
Green Bay, WI 54313

We request to be issued a certificate of insurance that shows this addition.

For Cirrus Training: we are a Platinum Cirrus Training Center and only provide CSIP or Training Center Instructors for training in Cirrus Aircraft. If you need any additional information please contact me directly at:

charlie@pilotsmith.com

Thank you,

Charlie Smith
